## PROFESSIONAL SUMMARY

- Results-driven Full Stack Developer with expertise in MERN Stack Development, and **database management**.
- Proficient in **frontend and backend development**, with hands-on experience in building scalable applications like **Project Management** Website, **Gift Card Management System, Interview Scheduler** and a **Video Meet Application.**
- Strong background in **Java-based projects** and currently developing an **AI-powered Image Captioning System using CNN & Transformers**. Skilled in **Git/GitHub, Power BI, and Agile methodologies**.
- Seeking to drive **innovation** in dynamic development teams.

## TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Java
- **Frontend:** React.js, HTML, CSS, Tailwind, Bootstrap, Redux
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Postman
- **Soft Skills:** Teamwork, Problem-Solving, Communication
- **Data Visualization & BI:** Power BI

## PROFESSIONAL EXPERIENCE

### INTERNSHIP [DEC 2023] - [JAN 2024]
**Codsoft | Remote Internship | Front end Development**

- At **Codsoft**, designed and developed interactive, responsive frontend projects, including a **Netflix Clone**, **Spotify Clone**, and **Student Dashboard**.
- Leveraged **React**, **JavaScript**, **HTML**, and **CSS** to create dynamic user interfaces with smooth navigation and API integration.
- Focused on **performance optimization**, state management, **responsive design** to enhance UI/UX.

### INTERNSHIP [NOV 2024] - Present
**Zealits | Remote Internship | MERN Stack Development**

- At **Zealits Solutions**, I am working as a **Full Stack Developer Intern**, specializing in the **MERN stack** to build and optimize real-world applications.
- I implemented **secure transactions, CRUD operations, and API integrations** for projects like a **Gift Card Management System (Google Wallet integration), Rental Apply Website (Square API payments), Interview Scheduler Platform** and a **Video Meet Platform** for Interview Scheduler Project.

## PROJECTS

- **Restaurant Giftcard Management System :**  01/2025 – present  **Deployed Link**

The Gift Card Management System is a platform designed to facilitate the seamless purchase, storage, and redemption of giftcards including Google Wallet. It enables users to securely buy, manage, and add gift cards to digital wallets like Google Wallet, while businesses can track transactions and buyer details efficiently.

- **Interview Scheduler :**  01/2025 – present  **Deployed Link**

The Interview Scheduler Website is a platform that allows recruiters to schedule interviews based on date, time, candidate availability. It ensures a seamless scheduling process, enabling candidates to view and manage their interview slots efficiently.

- **Rental Apply Website :**  12/2025 – 1/2025  **Deployed Link**

The Rental Apply Website is a platform designed to streamline the apartment rental process, allowing users to browse listings, apply for rentals, and make secure payments through Square API. It provides a user-friendly interface for tenants to submit applications and for property owners to manage rental requests efficiently, ensuring a seamless and transparent rental experience.

- **Image Captioning System Using AI :**  9/2024 – present  **Github Link**

The Image Captioning System leverages CNNs and Vision Transformers (ViTs) to generate accurate and context-aware descriptions for images. The CNN extracts visual features, while the Transformer-based model deciphers contextual relationships to produce meaningful captions.

## EDUCATION

- Fergusson College | HSC | 2019 - 2021 **|83.83 %**
  **Science Stream ( Physics, Chemistry, Biology)**
- Government College Of Engineering & Research| 2021 - present
  **BE Computer Engineering | 2022 - Present | 8.33 CGPA**
